

Commercial Real Estate Alliance

"Collaborative Real Estate Solutions"

HEALTHCARE DIVISION

www.creaunited.com

AN ORGANIC APPROACH TO NETWORKING

Imagine your perfect customer. Now think about the service/product you provide them. How many other potential disciplines are involved in the overall transaction? In commercial real estate, from broker to lender to attorney, there are several complimentary services involved in a single venture. Imagine an organization where successful firms and individuals represent all disciplines of the commercial real estate industry. Rather than trying to find leads to meet a quota, you share highly relevant information in a team of people with the same incentive for generating that business. A natural collaborative approach...

Welcome to CREA.

SUCCESS THROUGH COLLABORATION

CREA's group of experts examine real estate transactions using a unique team approach. The goal is to provide collaborative expert advice whether the transaction is a purchase, sale, lease, development, refinance or construction. All of the active professional disciplines involved are represented in the Alliance and the insights and experiences shared by the members are invaluable in ensuring success of a commercial real estate venture.

COLLECTIVE CARE

Healthcare is a niche market of real estate with more detailed technological and specific regulatory requirements. CREA United's Healthcare group is comprised of top-level leaders who are extremely knowledgeable of the market. Even services like cleaning, heating, and cooling are done differently in health care, with demanding sterilization and filtration needs. The value of each member sharing their expertise is far greater than what any individual can provide.

AREAS OF EXPERTISE

- Accounting
- Architecture
- Banking
- Brokerage
- Construction
- Engineering
- Furniture
- IT Services
- Legal

VALUE IN COLLABORATION

CREA's members benefit by sharing knowledge with other trusted, high-level experts in the same vertical, but different disciplines. In today's real estate landscape, it can be very difficult to avoid potential issues. Each vertical demands a specific expertise, making it near impossible for a sole discipline to deliver properly and error free. Alliance members are inherently better suited to identify issues through a collaborative approach, helping each other in their respective expertise. CREA can address and minimize risk much earlier, thereby preventing potentially irreversible ramifications. Ultimately, the expertise CREA provides is of greater value to a prospective venture than similar expert groups working independently.

Accounting
SAX LLP
www.saxllp.com

Founded in 1956, Sax LLP is a multi-disciplinary, forward-thinking accounting, tax and advisory firm serving the needs of privately held companies, family-owned businesses, not-for-profit organizations, and high-net-worth individuals for over 60 years.
